Hi, please have a look at my Shapeways Shop and contact me if you'd like to work together. I can do the work very fast. If you have blueprints I'll have no problem reading them. I can also work just from simple drawings, photos or descriptions.

http://www.shapeways.com/shops/droppingformdesigns?sort=popu larity

Cheers,
Matthew

hi,

we should be able to help you but we would need more details or an image before we can tell you if it's possible. we specialize in architectural design.

thanks,

Hi,

I am an architectural professional and I have created multiple building models for 3D prints. I have experience doing both the building from blueprints and just photos, as well as terrain around the building itself. You can see a couple of my models in my public models. Please let me know if you would like to work together. Thanks!
