Hi guys,

I'm new here and have a fun idea that I need help with. Please find attached pictures of the type of designs I'm looking to create.

Please PM me with details including price, estimated lead time, level of intricacy you believe you can get, and links to your other work.

Please note that a 'Work for Hire' agreement will have to be signed prior to the commencement of work.

Best Regards,

Mike

Thank you Coldsteelmike for that request. It had to be the oddest one I have read here yet. And to the brave soul that accepted it, besides the one that wears it, Cadninga be sure to post a pic of

the finished object here. That totally appeals to my wierdness level. Unless Cadninja models it, then nevermind. Not modelling the model, appearing in it in a posted pic
Shivers
