Hi Shapeways fans,

Rotabram is a Doug-Engel-style flat twisty puzzle, conceived and designed by Bram Cohen and me. When parts are turned, the small gears are changing orientation and the black hexagons are broken. The object is to scramble the puzzle and then to get the puzzle back to its starting state.

Watch the YouTube video.

Buy the puzzle from my Shapeways Shop.

Read more at the Twisty Puzzles Forum.

Check out the photos below.

Enjoy!

Oskar
