
Subject: We can currently not ship to Russia

Customs authorities in Russia have recently tightened restrictions on import shipments to Russia, in particular on dutiable shipments sent to private individuals. These shipments are currently under extraordinary scrutiny in an effort to improve accuracy of the accompanying shipping documentation.

These additional requirements lead to an unprecedented number of customs holds and delays in delivery. UPS has therefore temporarily suspended the acceptance of dutiable shipments sent to private individuals in Russia until further notice. Please accept our apologies. More info is given by UPS.
