hi
I am a 3d artist, I use blender \ c4d\3d coat as my modelling and sculpting tools,I can make your portraits printable with full detail. per portrait takes about 3 - 5 day will charge you 100 dallars. you can pay me after the job is done and you are satisfied with it.

I will send the 3D printable file to you as stl\obj\wrl or other format you want as soon as the job is finally doneï¼Œalso you can decide the size of the model and thickness so that can save your printing costsï¼ŒI will send you the images in the work-in-progress so that you can check if the job meet your requirementsï¼Œif not I will modify it until It meet your requirements.

You can pay me via paypal my paypal account is imdjs@tom.com
here is my sample

for more sample you can go to my website
http://blog.sina.com.cn/u/1325600780

If you have any need you can contact me
imdjs@hotmail.com

I am looking for someone to make a 3d model of my 1 year old daughter to be made into a figure. If its something you think would be possible just let me know what you need for a quote.

Thanks

Hi

I need to have a bust created of my husband. It should be similar your Obama example but it also needs to include a stand like this:

I would like it to be small so that it can be printed fairly cheaply. 4 inches tall perhaps?

Please let me know what you would charge and how long it would take.

Thanks!
Lauren

Hi,

I have a wonderful idea for a raspberry pi case that doesnt look like your normal case at all. I have hand drawn the general idea, as well as have clear images for the details.

It of course be for a private project, but would need to be made in CAD as well as accurate to the mm so i can 3d print it.

if your interested, let me know and i can start forwarding the right material directly to you.

Finances: I dont have much money so, we could do like a trade/barter deal if you want:
1) trade your services for $15,000 in software and programs
2) add you to my perminent contractors list; so when the money comes in, your my number # 1 contractor to get that money.

option: 3, im open to suggesitons or pricing(that is not too much)

Thank you and i look forward to your reply

(ps. this is extreamly private and if we make a deal, please do NOT post or share this info or files with anyone without permission)

Hi
  thank you for your proposal,It sounds interesting,but I have no experience in CAD software,all the models I've made in blender.
of course I provide the customized service of 3D modelling.
My rule is pay after job is done!.

thanks

Hello,

We are looking for a character modeller that is proficient in making a 2d image into a 3d (frontal) printable file (such as .STl etc) which can be printed using a Replicator 2.

We are seeking someone available to make continuous models for our ongoing business needs on a daily basis, please reply to discuss details and price.

Thank you,

Shane Keefe
