Hi to all Shapeways,
finally my silver printed rings arrived and I must say, they look beautiful. I'm really pleased by the detail and polishing.

They arrived in that nice looking black boxes. The only thing though, maybe there could be an option to print my own logo on them ? There's Shapeways right now. Plus, maybe even some option for having a bit smaller boxes ?

The only thing I would like to ask Shapeways staff, how much would it cost if there would be an option to polish even the more intricate shapes, like the Bubbly or Matchstick ring ?

I'll be doing some more photos of them, as I'm not happy with all of them

Here's the album of all the photos :
