Is anyone else having issues uploading models to shapeways?

My browser indicates it's constantly trying to connect....

I just uploaded a model.. no issues.
What OS and browser are you using?

I used Win7/IE9

No problem here either (Firefox/Linux/Europe)...
again, which OS/browser version are you using ? (And can you try with a different browser ?)

I'm using Win 7 with Chrome and I've tracked down my problem at least. I had the model's file size slightly too big. But the error message was all about not being able to connect, a simple file to large would have saved a lot of trouble.

Ray.
