Subject: Modeler needed to design Rubiks Cube tiles

Hi, I'm new here and have no experience at all with 3D modelling. I'm hoping someone can design a set of tiles for a "Blind Man's Rubiks Cube"

These cubes were around in the early '80's but are very rare and expensive these days.

The tiles are 1.6mm square, 1mm thick and the shape on the tile looks about 2mm thick, I've never seen one in person so it's hard to be accurate.

I have some pics to show what I want done. I'm a bit pedantic so I want them to be as close as possible to the original tiles in size, shape and colour.

There's also a video of one on youtube id that helps.

Thanks in advance, Keith ;)

Hi Keith,

I've sent you a PM.

Cheers,
Paul
