Hi

I'm trying to discuss with shapeways.com server to upload a zip file.

Here are the exchanges between my program and the server.

What I dont understand is why the server answers with a new session\_id when I invoked the submit\_model API.

Thank you for your help

seb

here are the exchanges:

-----  
POST /modules/shapeways\_api/webservice/v1/soap.php HTTP/1.1

Host: localhost
