Hi everyone!

I'm designing 3D Models for 3 years now and printed some of them, but I'm new to shapeways.
I can create STL and WRL (with textures) files.

My profile: http://www.shapeways.com/designer/grEEn70k
My rate: 15â‚¬ per hour.

Example for the price:
I created my Pikachu in about 1h, because I had a good image as reference.
The texturing took about 3h (It took only that long, because I had no reference and tried a few things).

The train 4042 took about 20h to design. (It was a long process, because of the exact match to the equivalent object in real live)

To estimate the price, some pictures and/or drawings would be helpful.
If you agree to let me place the model in my shop for public sale, I'll give 50% discount.

If you have a job for me, feel free to send me a PM.

Best Regards, Chris

I have just finished my first project for a shapeways customer successfully.

I look forward to new inquiries.

Was looking to get a model done of a penguin and of a cat. I have pictures of exactly what I want done. Just get back to me and let me know if you're able to do this for me and we'll get things going Hope to hear back from you.

Mark
