Dear Shapeways,

I'm really fortunate with the arrival of my ornithopter! Everything in the printing process went great, the model works and really looks awesome!

I don't really know how to place pictures in here. but I've placed it in my shop;

http://www.shapeways.com/shops/ess

I'd love to know what you guys think about it, rating it and leave some tips maybe

Thanks!

Is that sandstone? do you have a video of it working yet?

Never mind, I see you have it available in WSF and BSF. But I'd still like to see a working video.

There is a working video, posted it along with the pictures in the shop,
i dont know how to post them here

I love to see working models printed in one go - shows where the technology is heading.

Well done!
