Do you have what it takes to curate the coolest Shapeways products for our homepage? Take a shot and the homepage could be ALL YOURS for a full weekend! So show us your impeccable taste and win fame and a $25 gift voucher.

You have until Tuesday morning, 10am GMT+1 to come up with your selection.

How to enter

We're looking for products in the theme 'The Best of 3D Printing'. Things that cannot be made except for with a 3D printer. Things that make people go 'what?'.

To participate in this contest, select 12 objects and put them on your favorites list. You can select one of your own models of course, but try to stick to just one. Also, please check that your favorites list is not set to 'private'.

Next, share the link to your public favorites list here on the forum with us.

What's the prize?

Your selection of products will be used on our homepage for 48 hours, next weekend!

That's all?

Yep, get browsing and find those mind-boggling models

Bart

Hey Wedge,

yeah I can imagine that's not great.. I opted for favorites because it's faster for me to scan them. If that's a problem, feel free to just write down the 12 links here on the forum!

Happy Bird necklaces / MichielCornelissen: http://www.shapeways.com/model/521387/

Ok the most of that was already featured somewhere but I chose products which impressed

myself what all is Possible with the technique of 3D-Printing.
So I added the Names, I am sure you know most of them .
From moving interleave object, delicate Objects even in Ceramics 3D printed Fabric to captured objects.

@favorites Problem: I am not sure if I am the only one how stores is Favorite Objects in the favorites. It seems to some a litle bit strage to do this, but maybe it is an Idea to add some more sharable List for Contest or simply to show friends some selected Products.

Too late, but even the 3D printers' have issues with some of my models occasionally. Models, that can only be made using 3D printing technology
