Hello all - great site!! I have been spending a bit of time admiring the work and am just thrilled by the opportunities here to bring 3D models to life.

I have worked in the industry for several years as an architectural renderer using 3D StudioMax as my primary tool starting at version 2.0

Other favorite 3D software packages include Cinema, Maya and Vue.

I have been an avid student of digital art and use Photoshop and other Adobe products daily in my workflow.

I look forward to getting to know some of you better here on the forum and creating some fun stuff.

Feel free to check out my freelance side of things here for a tast of my style and work: http://3docean.net/user/vibes35

Thank you all!

Welcome to the community Vibes!

I checked out your site on Envato marketplace, really cool! By exclusive editor do you mean that its your site? or just your shop?

Anyways, you have some really cool stuff.

Welcome!

Thanks!
The exclusive Author on the Envato website simply means that I sell the items listed there exclusively on that site.

I can't wait to get some ideas and models refined and uploaded here.. Great community and work!!
