Hi Shapeways fans,

Today I broke the world record of highest order twisty puzzle. A Rubik's Cube is 3x3x3, so it is order 3. The previous world record was my order 13 Unlucky Twist puzzle, a 1x2x13. The new world record is order 23, my Overlap Cube 2x2x23.

Watch the YouTube video.
Buy the puzzle from my Shapeways Shop.
Read more at the Twisty Puzzles Forum.
Check out the photos below.

Enjoy!

Oskar

The insides look like an ancient Mayan puzzle of death. I also ponder on how these things work, and it hurts my head almost as much as thinking about how the Universe works.
