Hello everyone,

I have an aviation background, (pilot,skydiver, composite fabrication, RC and UAV design) and since 1995, have been working with these concepts in 3D. My current work can be seen on http://www.mikejamesmedia.com , where you'll find follow-along articles, tutorial DVD's, preview movies, etc..

Always seeking new clients for serious work. Contact me if you have a real-world, scale project, or a fictional one. (Examples of both are on my site.)

Thank you!

Hi Mike.

I'd like to get pricing from you to create a 3D model of a cufflink that has a private jet. I'd like the cufflink to be chrome.

I've attached an image to give you an idea of what I'd like the cufflink to look like.

Thanks.

Hello,

Thank you for contacting me. I'll have some questions, and certainly don't want to discuss pricing

on a public forum. Please email me via my site at http://www.mikejamesmedia.com and we can discuss it.

Thanks again.
