Hi to all Shapeways,
finally my silver printed rings arrived and I must say, they look beautiful. I'm really pleased by the detail and polishing.

They arrived in that nice looking black boxes. The only thing though, maybe there could be an option to print my own logo on them ? There's Shapeways right now. Plus, maybe even some option for having a bit smaller boxes ?

The only thing I would like to ask Shapeways staff, how much would it cost if there would be an option to polish even the more intricate shapes, like the Bubbly or Matchstick ring ?

Holey ring

http://www.shapeways.com/model/118481/holey_ring.html

Brick ring

http://www.shapeways.com/model/123014/brick_ring.html

Matchstick ring

http://www.shapeways.com/model/123016/matchstick_ring.html

Bubbly ring

http://www.shapeways.com/model/123004/bubbly_ring.html

I'll be doing some more photos of them, as I'm not happy with all of them

Here's the album of all the photos :

http://picasaweb.google.cz/vaclav.mazany/Jewellery?authkey=Gv1sRgCKb1qL_U9NPAZw&feat=directlink

So feel free to comment, judge etc.

I've added some detail photos.

Which one looks best ?(total votes: 21)

Brick ring 11/(52%)
Bubbly ring 2/(10%)
Matchstick ring 5/(24%)
Holey ring 3/(14%)

Congratulations,

They are looking fantastic...

Beautiful ! all of them.

The level of polish is amazing.

Look nice! Did you order the extra polishing or was this the plain silver?

Brick and Holey rings are in the polished silver, Bubbly and Matchstick are the non-polished silver.

Could you indicate the depth of the "channels/grooves" in Brick Ring? I'm interested on knowing which is the minimum depth that survives polishing, although the depth in your model doesn't seem to be small and maybe is very far from that minimum value.

It's made this way :

(it's a side view of the bricks)

Hope this helps...

Still I would like to hear some info about the polishing options, if it would be possible to polish even the Bubbly ring, maybe for a bit more than 15$?

What about having own logo on the jewellery box ? That would be nice...
