Hi,

I am Happnes, Creator of the custom Resin Ridley statue and Chozo statue currently available on eBay and
my online shop: http://metroidfigure.webs.com/

I recently decided to do commission work and would like to advertise my services here.
I can do any statue from any series.

I can craft anything that you the client requires (pornographic material included)

Ever wanted to see crossover series statues that will never get released?

Or one of your creations that you can imagine but can't quite realise?

Then you've come to the right place!

The first step is to either show or describe an example of the statue that you have in mind including the scale/ dimensions that you would like it to be.

I will then get back to you with a quote of how much the statue will cost.

On average the price range for a fully completed and hand painted statue range in the region of $150-$2000 for each figure.

The figure will be a one off and all I shall request is to be allowed by permission of the you the client to use a photograph of the finished statue in my portfolio.

After you have received the figure I shall destroy the molds and 3D-file.

Please message me with any commisions and I will get right on it!

Thanks!

Alex (Happnes)

Aloha...

I have a character I need to have a 3d model made for printing.. what are your rates??? How can I send you the art work...

Thanks

Will

Hi,

Please send me the brief with the attached images to my email address at alexanderwatkinson@yahoo.co.uk

I'll take a look and get back to you with a quote asap.

If it's just the 3D sculpting that you require I should be able to give you a very reasonable quote.

Thanks for your interest!

Alex

Hi,
Can you design 54 mm figures for me ready fo shapeways ? Also, maybe on a larger scale ? How much would this cost and what information would i need to provide ? regards craig
