I was just looking through Twitter, and Shapeways twitter links link back to the wrong stuff...
e.g.
3D printing video BASHIBA ONE 16.5: shared by BASHIBA http://shpws.me/yE4
links back to http://www.shapeways.com//model/202801/ and the shortened link on that page (http://shpws.me/21gD) goes straight to http://shpws.me/

Also, I was going to check to see if the 'Awesome Month of March' blog entry had had the shop & model links fixed... but the entry has disapeared from the Blog Overview page. I did find the blog entry, http://www.shapeways.com/blog/archives/788-An-Awesome-Month-of-March-at-Shapeways.html and the shop / model links are still not right

Same here, none of the previous urls seem to go where they did before.

Thanks guys! I'll pass it on to our developers immediately.

Bart

We've seen it, working on it.

'Fixed' by backing out to the previous situation. This also implies that the shortened URLs from yesterday to today are broken with no way to repair.
Old shortened URLs from before yesterday, and new ones from now again work
