I was wondering if someone could tackle this project. I have always loved the cover art to this game, even though the game itself was horrible.

I am looking for someone to make the rings (basically this is the only photo available), with the gems as a separate item.

Not really much in my play budget, so I am looking to pay around 10-20$ a ring. No hurry on getting them done, so it's not a rush job or any pressure whatsoever.

If this works out, I have some other rings I would love made as well, and will need a 3d modeler to take care of that, so this might end up being a repeat business situation

If interested, please post up or PM me, or email me at hydin@cox.net .

Thanks!

I don't really have the time for a project now, but I do want to leave this here, a slightly better pic...

(one thought though, won't you get stuck to everything wearing those rings, they seem quite pointy)

Awesome picture though!
