Hi,

yesterday I got three crystal style pendants ...
Crystal Pendant
Crystal Ornament Pendant
Crystal Setting

One of them was made with the exact measurement of a "mountain crystal" I have.
I had to grind it a little but now it fits perfect in the setting and I fixed it with some glue.

Pretty! I was going to say my favourite of the first two would be the ornament pendant, but then I had another look at the other crystal pendant and decided I really like them both.
