Another new creation. Really love this one.
Will be doing a iPhone version of this soon.

Blackberry 9000 Case, inspired by the human Finger print.

You can purchase it here! :

Lovely design,

If you have a good photograph (not render) of the finished product as the lead image for your product we can include it on the front page gallery

Here are the new shots.

I've also updated the store front image as well.

Cool,

You need to use this image http://i7.photobucket.com/albums/y288/xxdaggerxx/BlackBerryBeutyShot.jpg

To ensure we can add the product to the gallery as we do not want renders on the home page.

Thanks
