Hi, I am planning on creating a pendant quite similar to
<http://www.crystalclassics.com/images/1515873-1.jpg> , however I never did such a thing before
(the swarovski part, I lost my old account, I am not new to the entire 3d printing business), so any
advice or experiences would be extremely appreciated. Or if you have seen any tutorials out there
I would love to hear about those too .

Thanks a lot in advance, David Mulder
