This arrived today and has turned out brilliant, the detail was surprisingly good, as well as the tiny chains within the design (wires of 1mm)!!!

Captured Snowflake - Christmas Ornament -
"Make Christmas Eternal!

A Snowflake, captured and preserved in an intricate hollow star cage. The snowflake hangs from 6 loose chains - makes a great unique Christmas Tree decoration using the inbuilt hoop and looks great all year round."

Tell me what you think!

I have also uploaded a 'demo' of the ornament on YouTube: see next post

And also a 3D Video of this 3D Printed Ornament Spinning: <http://youtu.be/aF7VJQuOZpo>

Note - These photos are quite large so may take a while to load, if they are taking too long please just view the product's page where the images are down scaled.
