Subject: Are earring hooks still available for earring models?

Hello, I just wanted to ask if the earring hooks that we could request in the past to be attached to earring models were still an option available to us?

It has been a while since I last logged on and the site seems to have changed around a bit. I've done a search in the forums and had a quick look through the tutorials but couldn't find out if they were or were not still available, so thought I'd better send a direct question out to you

Also, if they are still available, how do I make sure they do get attached to the earring models again?

Thank you in advance
