
Subject: Shop Inventory Numbers Gone Crazy

Hey there Shapeways,

I think the 'Shop Inventory' section of the 'My Shop' page had a little meltdown or seizure.

When I go in Shop Inventory, the first product - first, mind you - is number '63'. There is no 1 through 62, 63 is the first number that shows up. The next products are numbers 87 through 93, and it then jumps again to product 123.

This, as opposed to 1, 2, 3, etc. As a matter of fact, I fixed it a couple days ago and manually renumbered my products to 1, 2, etc. I can't say when it switched back to crazymode, but it did at some point between then and now. Could we get this looked at, please?
