Hi Shapeways fans,

The Pentagon is a puzzle that I designed for its cuteness. It is quite small and hence quite affordable. The Pentagon is a pentagonal equivalent of the 2x2x2 Rubik's Cube. The pieces are a bit hollowed out so they can turn smoothly over and under each other. I used cadding to make the puzzle look "water tight", similar to my Kilominx version.

Watch the YouTube video.

But the puzzle from my Shapeways Shop.
