Hey guys,

I just PM'd a few people, but I'll just make the post public.

I'm a student at Cornell University who is just getting into 3d printing. I think the technology is awesome and I want to keep building my ideas.

I need the files in .stl format so I can convert them to .gcode and print them from my makerbot.

As long as the rates are fair, I have a budget to hire a few designers. The ideas aren't to complicated.

Message me here, email me at tgb29@cornell.edu, or call me at 732-735-1836.

Thanks and I look forward to having fun

Teddy

Hello from Detroit Michigan!

I am available for this 3D CAD Design work.

If you have sketches, etc then send them to jeffopel@ameritech.net

Regards

Jeffrey Opel
