Sol'una is a space opera RPG and skirmish level miniature wargame. It draws heavily on the art deco and art nouveau periods, and contemporary fashion from the likes of galliano, pulp comics ala flash gordon, and manga.

I am looking for a modeler with interest in the afformentioned genres and skill in designing 3d printable 28-32mm sized wargame miniatures. Interested parties please provide URLs of work that fits my needs.

As a task please provide a rate if the job was to model the photo from this link:
http://teacupsandcouture.com/?attachment_id=8117

Thank you for your time.
