Hi guys, ive received my first order ~ 1 week ago

my order miss alot of parts, but shapeways quickly took care of my issues with the order and sent another pakage. thanks guys!

ive used 2 6mm x 1.5mm n40 magnets, small 1mm metal rods and small silicone tube for the build

ive also black dyed the parts, looks good

here some pic and video of the NMBB

Hi guys, i got a newer version of the NMBB and also a newer model.

i see that Shapeways changed the pakaging method, thats a very good news!!!

parts arrived fine and NOT bent! good job Shapeways

very nice print too, ill try to post some pics soon
