Hi Shapies,

This is a reiteration of my Think Outside the Box Ring, and it will be printed shortly in stainless steel

This ring is for all those who like to think, dream, imagine and are absolutely bored with standarization, mondaine life, cubicles, cookie-cutter thinking and so on. This particular one has a 17.30mm diameter, but please feel free to email me for custom sizes. (available in a variety of materials). email:kspaho172@g.rwu.edu
