My kid was a big fan of the Power Rangers Mystic Force, White Ranger. I have looked for a "snow staff" similar to the one used in the show but no one seems to sell one so I would like to know how much it would cost me to have it modeled? I attach some reference images....thanks

Modeled... not that much. It would cost you probably more to print it. Then again... its all depends on the size. I can model it for sure. It looks easy enough.
