Hello, I'm a product designer

I can make your ideas come true  
here is my 3D CAD portolio:  
<http://grabcad.com/albertus.putra/projects>

I'm experienced 3D modeler, especially when it comes to SolidWorks  
Thanks for your attention . .

Bertus does amazing work in an incredible speed. He helped me with my thumbtack project and the results were wonderful. Gave wonderful extra views of the thumbtacks.

I would definitely recommend him for an of your project needs!

Great guy!

Thanks again Bertus!

I need the services asap.

I need to create a case for a gadget like a box.

Means I have a development board I need an enclosure .

Let me know your details and price range asap

Hi,

100 bucks seems a little too over my budget but as you mentioned we can work something out.

email me at [rahul19dj@gmail.com](mailto:rahul19dj@gmail.com) so we can discuss further.

Hello

I am looking for someone to help me create a simple proof of concept text based model (think 'words set in stone')

The concept is in two parts - both in ceramic:

1. A flat tile with the words in relief
2. A flat tile with the words engraved

I was looking at 20-point Times New Roman but happy to discuss.

One sentence to start with - would like to use (without the quote marks):

"I am guilty of an association of ideas."

Also interested in discussing a cylindrical version of either 1 or 2 in the future - in plastic perhaps...

Contact me if you are interested

Helen

I'll make a scale model of electric bike, about 1:3  
maybe I'll go with 3d printing for main frame and body-cover

if it's too expensive, I'll try to CNC manufacturing

I'll post again when it's finished

Hello,

Can you turn a child's drawing into a 3d model that can be printed? If so, how many can you produce per day?

Best Regards,

Nicole

I want a 3D figurine of us for our wedding cake?

What do you require?

What is the cost?

How long does it take?

Albertus,

I have a physical prototype I made of metal and plastic I need created in all plastic. it needs to be exact size but I will need to explain what is an imperfection. how do we get started?

Dan

Hello. i was wondering if you could help me with a little project.

I was wondering if you could make the tf2 spy sapper for me. name your price first and color would be nice.

---

Hey. I hear you are good and I was wondering if you could make the tf2 spy sapper (<http://wiki.teamfortress.com/wiki/Sapper>) for me.  
Name your price beforehand and thank you for your time.
