I just thought that it would be nice if we could mark certain stores as favorites somehow instead of just individual items. This way we can keep up on the new releases that our favorite shapeways designers upload. As it is I just have to bookmark each store externally, which isn't optimal.

Just an idea.

Sounds like a good idea to me... The same as Etsy now has it set up; you can favourite an item or a store...

This is a great idea, and something we are working towards, where you can have a more social experience of Shapeways - favoritng stores, talking to each other (using the new @mentions!)

I'll pass it onto the product team!
