Hello, we are looking for a specialist who can help us developing scale modelcars. in first instance we need surface models.

we can supply documentation, sometimes factory drawings.

please react a.s.a.p.

Kind regards,

Janet

Hello, I'd like to at least give this a try. I've been retraining myself in 3d modelling for the past year and can do most things with ease now.

Keep me in mind if nothing is happening for you.

Hi, friends

Nice to meet you !

I am very suitable for your this position. Because I draw the automotive model more than 400 sets, most of them is 1:18 or 1:43 scale .

I can draw 100% same 3D model just base on the color picture . If you are interesting in our cooperation, just feel free to contact me , my email is [richardbovelt@live.cn](mailto:richardbovelt@live.cn) I can show some my 3D file for your reference .

Besides, my commision is very low, because I am China.

Thanks and wait for your reply.

---

Yours sinerely

Richard
