Hi Shapeways fans,

Gear Planet was suggested by Ferdinand Lammertink. Ferdinand is best known as the inventor of several Thinkfun puzzles, including Backspin and Port-to-Port and recently Perilous Pipes by Popular Playthings.

Gear Planet has 11 tiles. There is a gearing&sliding mechanism for scrambling the tiles. The object is to get them all back in order. Experts may recognize some similarity between the gearing of four tiles, and the up-and-down mechanism of Port-to-Port.

Watch the YouTube video.

Buy the puzzle at my Shapeways Shop.

Read more at the Twisty Puzzles Forum.

Check out the photos below.

Enjoy!

Oskar

Hi Oskar,

I just watched your video and I can't wait to hear what the hidden mechanism is

Nice job!!

Bart
