This material <http://www.shapeways.com/materials/glass> never show up on this page
<http://www.shapeways.com/materials> no matter how you configure the filters, and in fact it is missing without any filter active.

Just wanted to let you know

It's the first item in the third row.. all by itself.
Could you include a snapshot of what you're seeing?
Also, which OS and Browser are you using?

This is what I see:

Chrome on Windows 7 64bit.

Duh and now glass is there wtf

But I swear, before I tried filtering, like first only LOW PRICE, then MED PRICE, and glass didn't appear. Now it's working.
