Hi,

Your stuff looks great - I am a model railway enthusiast and would like very much to have a body shell produced in OO scale of the locomotive from the movie 'goldeneye' The loco was actually a modified BR class 20. I can provide you with pictures etc.

Let me know - thanks

do you deal with the 3d printing as well?

I am new to all of this and want to get a simple logo done in 3d and made (hopefully in metal)

any advice would also be helpful

Thanks,
David

Hey Ryan,

I need help designing a pair of women's high heels- fashionable and sexy.

Are you available?

Thanks!

Just wanted to bump the topic and give feedback on Ryan's work.

Great person to work with and renders amazing figures!

A+ all round!

OK, it's after Christmas. Are you available?

I want to produce models from 3D game avatars to reward the top players, and for a test have low-poly 3D model from the game and photo of person who we want the statue to resembled.

Can you help put this together? In the next couple weeks? If interested please contact me or email your contact info.

Richard

Hi, yeah I guess Im available now.

I get lots of people asking me to make stuff for them though so Im having to prioritise and form a queue.

Thanks for the reference Bryan, I appreciate it.

@Chard - Yeah I may be able to handle that for you, sounds interesting. You can email me the details and any images at: ryangregory (at) hotmail.co.uk
Once I have a better idea of what it is you are wanting I can give you an accurate estimate.

Thanks alot.

I'm available for work again.
I'd love to work on some miniatures or character sculpts if anybody need them making.
