Hi,

Arrived and combined!

I was thinking to combine the BS&F and RS&F with metal and I thought that was nice to use a big bronze plated chain in combination with the red and and black materials that I love.

This is the first test, I think they are very nice, they looks glamour and all the connected parts are working good, the necklace's closure on the back is also working fine. I made also one version inspired by my COUPE DE COEUR collection, but the final necklace pendant it seems to be too fragile and I have to work again on it.

Earrings and necklaces looks gorgeous, I've tested them yesterday during a fashion show and are perfect if worn with a casual or an elegant outfit.

Hoping you like it, opinions are welcome.

Items are not for sale.
