My boyfriend is a huge Portal fan, and I myself do like to play it from time to time. My favorite line ever had to be Cave Johnson's lemon rant.

The discussion came up between me and him about all the other fruits that could possibly be made into awesome Grenades and why. To facilitate this, I decided his christmas gift would be this:

It's a grenade pin that goes into fruit. I was a little nervous about that back pin handle because its SUPER thin, but all in all--when I saw it, it was perfect.

Yay 3D printing. Yay being nerdy. Yay for insidious fruit drama to ensue.

Thanks Shapeways, for helping me with my awesome printed loveliness.

Thanks everyone! Yep, I am going to be customizing it for my bf, but I was thrilled at how well the print came out.
