Hi,

We are interested in getting one of our original character models in an optimized format for 3D printing. The original model is a low-poly 3D-StudioMAX file for iPhone games and would not be suitable for 3D printing. We would prefer a stylized version in zBrush / Maya with lots of fine grain detail to really make the figurine look amazing!

If you are interested, please email me with some examples of your work and an estimated cost.

My email is [support@ezone.com](mailto:support@ezone.com)

Cheers!

Simon

Thanks everyone for contacting us. We have awarded the job and we'll post some pics soon of the design. Cheers!
