Hoop Troop VerÃ³nica did such an amazing job making 17 custom hula-hoops for the ThreeForm performers at Maker Faire, she's been promoted to Captain, and I've made her this awesome outfit.

The design was printed in WSF material at Shapeways and dyed a deep scarlet. The top has snap fasteners that also act as hinges. It is completed with black elastic string webbing. The bottom is a set of 10 overlapping plates joined with a clear vinyl line.

More images from the incredibly fun photo shoot the other night are on the ThreeForm Facebook here: <https://www.facebook.com/media/set/?set=a.298869076881534.52408.114001098701667&type=3>

Tons of great imagery featuring the Hoop Troops is still flowing in to Flickr from World Maker Faire, like this one:
