Hi bellaclava,

can you share some more information about your project? Many people are specialized in certain areas - I suspect you'd get more responses if you are more specific about what you need.

Here is a link to one of the models I would want to make - it's a snake plant. I would not need you to model the pot or the dirt, just the plant. It will be printed in the white, strong flexible plastic by shapeways.

I will provide detailed measurements.

NEED DESIGN BY DEC 11 at latest.

Please email: ariellefalk@gmail.com

Thanks,

Arielle
