Hi,

the "Views" counter in the forums counts up, even if you visit yourself your own post - don't know whether this is wanted or not ?

If I edit my model and want to apply tags, i.e. "Buddha", I can not see the letters, which I typed. They only appear, when I add the next tag...

I added few models all under ART>SCULPTURES and gave them the tag keyword "Buddha". If you search by selecting "Art" and then searchword "Buddha" you will not find any result...

I found a Lot off Buddhas if i Search for "Buddha". Also lot from you. Maybe it takes a while if in is included in the Search.

I have the same Problem with the tag editing on FF.
