Would a modeler here be interested in one or both of these toy projects? The real truck will be scaled down to 1/64 and the red and white is already 1/64 scale.

The only part needed drawn would be the "bed". The part from the back of the semi cab to the end. I can provide measurements and many pics.

Accessories on the on the red and white need not be drawn. I can explain what is needed to interested parties.

Thanks Eric

Hi Eric,

your first image is broken. Could you fix it?

Cheers,

Bart

Bart, I do not see a place to edit the thread. I'm not sure how that funky code at the beginning of the post got there.

You should have an 'edit' link at the bottom of the reply:

Thanks, not sure why I was overlooking that. I fixed it.

Eric
