---

I am in need for a 3d modeler who can make Models of some heroes for my card game called Legacy so i can give them away as kickstarter pledges.

[www.legacytcg.com](http://www.legacytcg.com)

unfortunately until the kickstarter happens there isnt any money, so the only way i can do this is to give a cut of the profits to the artist.

for example.

lets say it costs 60 dollars to make the character / print it and ship it to me.

i'd have to give it away at the 200 dollar level or something so the profit is around 140 or so. so each unit sold the artist would get 70 dollars.

either that or we can work out a flat fee and i can pay out of the kickstarter money.

skype = starcat42
