Hi,

I am currently looking for a few designs of Resident Evil. I am looking for the resident evil mansion keys, (Sheld, helmet, sword, and armor) The Raccoon city S.T.A.R.S. key and the Resident Evil 2 Police Keys. I have found a 3d designer on the site that does them, but he has not got back to me. I am looking for these keys to also be colored as in the Game. I will upload pictures as well.
