'Stephano' is a character that the Youtube Gamer "PewDiePie" uses in his Amnesia series. PewDiePie (At the time of writing) has over 3 million subscribers on Youtube and a massive community of people who would love their own Stephano character. I ordered it in Full Colour Sandstone and was very happy with the way it turned out and is now residing on my desk as a unique paperweight - as opposed to the usual rocks I've been using in the past!

I would love it to be featured so that there is more chance of PewDiePie's "Broarmy" to come across it to make more sales. As Stephano is the most popular character on the channel, he is searched for the most.
