Hi all,
i'm working on a personal project, a piece to put in my desk, i hope that you like it.
I titled it "The Elegant Dog"
I think I will adapt it to other purposes, not only as an ornament.
Comment and critique are very welcome (and sorry for bad english!)
Cheers

It would be great, but i'm afraid that the printing process in ceramic will broke it
If it's possible i'd really like to make a plate to place under the dog for the chocolate chips/tears.
I'd love to transform it as coffÃ" cup

I LOVE Great Danes too! It would look so great in ceramic, but I can see all the places it will break sadly

It's a beautiful model nonetheless, well done!

I think it would look very nice in any of the Stong and Flexible plastics. Polished or Dyed would
look very nice.
