Ha, my turn to post something!

My friend Jack is into metal so for his birthday we made him this.

It his name, based on a totally original drawing by R.J, which I then 3D modeled in Rhino and printed in stainless steel.

(dang, its sideways!)

It was so exciting to see it realized!! Even us Shapies aren't immune to the thrill of un-boxing!!

update: He loved it!

WOO HOO!

Nice one Natalia! Great to see SW let you have time to enjoy the service yourself
...and your friend has great taste in friends and music \m/
