I did an ornament for my mother, my father, and my lover...

A rose for my mother, a deer for my father, and the NY Giants logo for my girlfriend, cause she is a fan of the team, feel really bad for her this year with them not making it into playoffs. Anyways the last one hasn't arrived, the photos for my dad's are in my model gallery, but didn't turn out as sharp cause camera wouldn't focus on it.

I did want to show you the rose one as I believe it turned out really well, both in person and in photograph. Would love to hear any feedback, good or bad. cheers! Holiday Rose Ornament

The circle is really choppy, could have used some more polygons for smoothness

Cool gifts though!
